

Dear Sirs: I am a XM Radio customer and I am looking forward to getting the weather and traffic channels. I do a lot of traveling and it would be a great help for me. I feel that being I am paying for this service, I should be able to get these types of services from XM Radio. I do not feel that the National Association of Broadcasters should be able to tell me what I can or cannot listen to when I am paying for the service. I hope that you will NOT limit XM's ability to provide me and others with "locally oriented" content, including the new XM Instant Traffic & Weather channels.

Thank you. James Fuhr
